

SSU | ENVIRONMENTAL HEALTH & SAFETY DEPARTMENT

Aerial Lift and Elevating Work Platform Safety Program

Equipment Inventory List

Lift Equipment Inventory List for: _____

Department

Instructions: An initial inventory of Industrial Lift Equipment owned/operated by each department must be conducted to identify all equipment impacted by this program. This must be done by physical inspection. At SSU this survey may be conducted by a Responsible Person in a department, the department's DSC, or their designee, and documented on this form. Update this inventory list as equipment is purchased or retired from service, and at least annually.
